

JUSTICE SUCCESS **STORY**

FIR Registered, Arrest Made, Bail rejected in Digital Assault Case

Following a troubling case of digital assault, a victim of emotional and mental abuse sought justice after her spouse engaged in blackmail and harassment, including the unauthorized distribution of compromising photographs and videos on social media platforms.

Despite the severe distress caused by these actions, the victim remained resolute in her quest for justice.

The Litigation team of LAS played a crucial role by assisting in the registration of an FIR with the FIA Cyber Crime Wing, which led to the arrest of the offender.

Additionally, the team successfully argued for the rejection of the offender's bail application, ensuring that legal action continued unabated.
